

# LIMITS ON PERMIT OBJECTIONS

CalRecycle may only object to a proposed permit if it does not meet one of the following:

- CalRecycle's state minimum operating standards
- financial responsibility and assurance requirements
- requirements for conformance with the integrated waste management plan siting element and consistency with the general plan

# ISSUES NOT WITHIN CALRECYCLE JURISDICTION

- Application completeness is determined by the LEA
- Odor at landfills is the jurisdiction of the Air Districts
- Local Land Use approval (siting) is the jurisdiction of the local planning department
- Where there is pending litigation on a CEQA document supporting the proposed permit, CalRecycle, as a responsible agency, has to act as if the CEQA document is valid until a court rules otherwise

# STATUTORY LIMITS ON CALRECYCLE AUTHORITY

43020. The board shall adopt and revise regulations which set forth minimum standards for solid waste ...disposal, ...**The board shall not include any requirements that are already under the authority of the State Air Resources Board for the prevention of air pollution** or of the state water board for the prevention of water pollution.

43021. Regulations shall include standards for the design, operation, maintenance, and ultimate reuse of solid waste facilities, but **shall not include aspects of solid waste handling or disposal which are** solely of local concern or which are **within the jurisdiction of the State Air Resources Board, air pollution control districts and air quality management districts**, or the state water board or regional water boards.
